THE STORY OF HOW WE CAME TO
LOVE THE TIFFIN

10 YEARS AGO MAIN SQUEEZE
NATURAL FOODS CAFE BEGAN

A **QUEST** FOR OUR

**HOLY
GRAIL...**

THE
ULTIMATE
To Go
Box.

OPERATING A SUSTAINABLE BUSINESS
MEANS FINDING TO GO PACKAGING THAT
SAFELY TRANSPORTS YOUR FOOD OR
DRINK WHILE CREATING AS LITTLE
DAMAGE TO THE EARTH
AS POSSIBLE.

PETROLEUM-
BASED PLASTICS,
CONTRIBUTE TO
THE DEMAND FOR
OIL, FUELING THIS
WAR AND LIKELY
OTHERS. SO IN
2001 WE BEGAN
USING CORN-
BASED TO GO
PACKAGING....

NO WAR FOR OIL

COULD A CORN-BASED POLYMER KNOWN AS **PLA**, BE OUR **HOLY GRAIL**? WE HOPED SO, BUT THE DISAPPOINTING TRUTH ABOUT PLA IS THAT IT DOESN'T JUST MELT AWAY IN YOUR HOME COMPOST... IT CAN TAKE MORE THAN A YEAR TO COMPLETELY BIODEGRADE.

CURRENTLY ALL OF OUR JUICE & SMOOTHIE CUPS, LIDS, STRAWS, SALAD BOXES, PORTION CUPS, DELI CONTAINERS AND ALL OF OUR TO GO CUTLERY IS MADE FROM PLA.

MUCH OF THE CORN USED FOR PLA IS BIO-ENGINEERED, AND THAT'S BAD FOR THE ENVIRONMENT AND ORGANIC FARMERS. SO STUCK BETWEEN A WAR (NOT WANTING TO GO BACK TO PLASTIC) AND A (BIOENGINEERED) CORN PLACE, WE CONTINUED OUR QUEST FOR OUR HOLY GRAIL...

...AND WE FOUND IT IN
MUMBAI, INDIA....

IN THE INDIAN CAPITOL OF MUMBAI 5000 **DABBAWALLAS**, OR DELIVERY PEOPLE, TRANSPORT FRESHLY MEALS IN **TIFFINS**, OR DABBAS, TO MORE THAN 200,000 WORKERS EVERY DAY. USING BICYCLES, HUMAN-PULLED WOODEN CARTS, AND A STRONG NECK, DUBBAWALLAS BOAST A 99% ACCURACY RATE, PRETTY AMAZING CONSIDERING MOST ARE ILLITERATE AND THE COMPANY RUNS WITHOUT COMPUTERS.

WHILE WE AREN'T QUITE READY
TO LAUNCH A DUBBAWALLA-
INSPIRED MEAL DELIVERY SYSTEM,
WE ARE THRILLED TO HAVE FOUND
OUR **HOLY GRAIL**...THE TIFFIN!
GET YOURS FOR \$15 AND FEEL
GREAT ABOUT ALL THE
PACKAGING YOU AREN'T WASTING!
MAIN SQUEEZE AND THE PLANET
SAY THANKS!

HAIL THE HARD WORKING DUBBAWALLA,
AND HAIL THE GRAIL....THE TIFFIN!
